- Open-Source technologies (LAMP stack)
 - Linux
 - Apache
 - MySQL / PostgreSQL
 - PHP / Perl / Python / Ruby
- Open-Source dedicated team
- Big company customers
 - Web Consulting
 - Audit / Training
 - Web Development

symfony
PHP Framework

symfony

- PHP 5 Web Framework
- Based on 9 years of Sensio experience
- Based on well-known projects (Mojavi, Propel, Prado)
- Open-Source
- Built for :
 - Professional Websites
 - Complex needs
 - Demanding environments

Licence
MIT

Bring together
Entreprise World
Open-Source World

Don't reinvent the wheel

- Follow best practices
 - MVC Pattern : Model / View / Controller
-
- Unit and functional test framework
 - Environment and deployment support
 - Security (XSS and CSRF protection by default)
 - Extensible (plugin system)

Simplify
your Life

Develop faster

- Each line of code has a cost
 - To write the line
 - To test it
 - To maintain it
- Write less code
 - Architecture : controller, ORM, ...
 - Configuration
 - Autoloading
 - Generators
 - Helpers
- More time for business rules, edge cases, ...

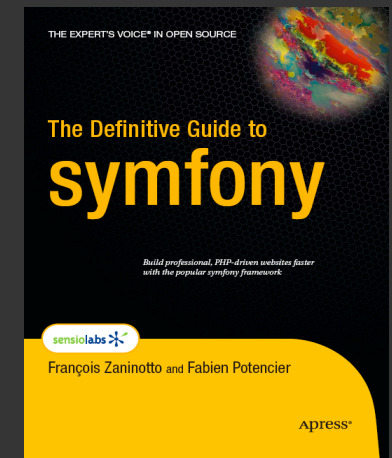

Main selling points

- Documentation
- Configurability
- Security
- Debugging tools
- Functional tests
- Extensibility : Plugins
- Admin Generator
- ORM : Propel or Doctrine
- i18n / l10n
- 1.0 maintained for a long time

Standard
PHP 5
MVC
Routing
Cache

A Professional Web Framework

- Built from experience
- 1.0 stable, maintained with commercial support
- Growing community
 - Developers in more than 80 countries
 - 100 000 visitors per month on symfony-project.com
- Open-Source Documentation
 - The book (450 pages - GFDL)
 - Askeet Tutorial (250 pages)

Next symfony Workshops

En français : Paris, France - Dec 05, 2007

In English : Paris, France - Feb 13, 2008
